Armageddon or A New Beginning?

A discussion with Irene Ying Ying Chung

Many cultures and civilizations around the world and throughout history refer to the year 2012 as a watershed in human history. Many predict a period of major upheavals and disasters. Is the world coming to an end or is it the beginning of the transformation of humankind?

The world is changing around us. It seems like we no longer have control over our lives. We are like flotsam in the stormy sea of change. How does time's steady march towards December 18, 2012 affect us individually?

As we get closer to 2012, we will experience ever-increasing pressures to make changes in our personal lives. These changes have already begun whether we realize it or not. Our resistance to change causes us emotional, mental and physical pain.

Come to this discussion to learn how 2012 will affect your life, your health, and everything around you.
